| Share information about your healthcare with non-CMH providers | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> |
| Access from anywhere you have an internet connection | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> |

The CMH Patient Portal is similar to your online bank account – it contains your health information from CMH Clinics and allows you to interact with CMH Providers.

Microsoft HealthVault is like your Quicken (or other accounting software) account – it contains your health information from multiple sources. It is a personal health record that allows you to store all of your health information in one place.
